CDMI Consulting has widely been acknowledged as a consulting company which publishes numerous research books in diverse industrial sectors. Formerly, the company has succeeded in publishing a book with the title of "Indonesian Palm & Refinery Directory 2017" which is responded positively by oil palm industrial business players and supporting industries within and outside the country since it is extremely beneficial to accelerate their business.

Presently, CDMI Consulting issues a book with the title of Indonesian FERTILIZER Directory 2018 containing comprehensive fertilizer producers in the country. Based on a research of CDMI that in the last six years (2012 – 2016) the need of fertilizers namely Urea, NPK, Phosphate, ZA, ZK and organic fertilizers had kept on increasing. In 2012, the demand for subsidized and non-subsidized Urea fertilizer reached 5.95 million tons soared to 6.27 million tons in 2016. Whereas, the demand for NPK fertilizer in 2012 amounted to 3.47 million tons and escalated to 3.51 million tons in 2016. Similar things occur in other fertilizer types.

Viewing high demand for fertilizers in the country, fertilizer producers compete to raise their production through fantastic investment like Pupuk Indonesia through its subsidiary companies constructing six fertilizer plants in several places with an investment of Rp. 10 trillion until 2021, Saraswanti Group through its subsidiary company PT. Anugerah Pupuk Makmur (APM) incessantly constructs numerous fertilizer plants beyond Java to enlarge its market segment of 10% until upcoming five years. Similarly,

PT. Polowijo Gosari and other private fertilizer producers also perform the same things.

Indonesian FERTILIZER Directory 2018 contains comprehensive profiles of fertilizer producers in Indonesia as well as fertilizer production in 2010 – 2017, the demand for subsidized and non-subsidized fertilizer in 2012 – 2017, the need and distribution realization of fertilizers in all agricultural and plantation sectors, need and distribution of all fertilizer types in entire provinces of Indonesia and width of agricultural and plantation harvest in Indonesia which are comprehensively discussed in its Executive Summary.

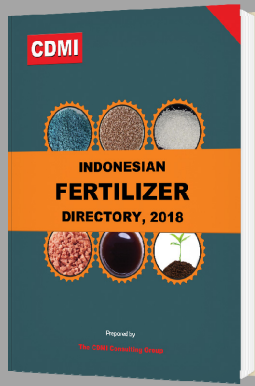

Viewing the significance of this directory, CDMI Consulting is engrossed in performing a deeper investigation for 4 months to compiled data and finally succeeded in publishing it in a book with the title of "Indonesian FERTILIZER Directory, 2018".

This book is only available in CDMI Consulting and it can be ordered directly to our marketing division with Mrs. Tina by phones: (6221) 3193-0108, 3193-0109, 3193-0070, or Fax: (6221) 3193-0102 or e-mail: marketing@cdmione.com at a price of Rp. 5,500,000.- and US\$ 420 for overseas price.

Having submitted this offer, we thank you for your cooperation and look forward to hearing your response promptly.

Cordially yours,
